

Lake Champlain MARITIME MUSEUM

FREE OF CHARGE

8:00 to 3:00

Brown Bag Lunch

Expense Reimbursement Available

1-Day Training for Educators B-WET Watershed Science

SEPTEMBER 25 Boquet River (Willsboro, NY)
OCTOBER 2 Missisquoi Bay (Swanton, VT)

Locally relevant watershed science activities you can do with students.

Learn how watersheds work and how rivers affect Lake Champlain.

Try simple tests for watershed health and observation activities that make clear why wetlands matter.

Meet the wildlife that share our waterways.

Spend a great day with others who want to make water a key part of this year's lesson plans.

REGISTRATION & DETAILS ONLINE: www.lcmm.org

NOAA's Bay Watershed and Training (B-WET) program is an environmental education program that promotes locally relevant, experiential learning in the K-12 environment. The University of Vermont Watershed Alliance (UVM WA) is an Extension program in partnership with Lake Champlain Sea Grant and the Rubenstein School of Environment and Natural Resources which increases awareness and knowledge of watershed issues in Vermont youth.
